

LORD THETA RESOURCE

The 6 Point Plan

Six simple things that I want you to do for me daily.

Lord Theta

The 6 Point Plan

The plan is very simple and yet, if you fully commit to it, which I expect you to do, you'll quickly start to notice the changes as you start/continue this journey.

So daily I want you to do the following things:

1. Listen To ATLEAST One Of My Files Daily And Repetitively

Without fail. Listen to my voice and files atleast once every day, more if you can. The more you listen, the deeper I'll sink and the more profoundly and quickly your transformation will happen.

2. Watch Hardcore Interracial Porn Daily

Without fail. I want you watching whitebois/sissies etc getting fucked by big thick black alpha cocks every single day. A minimum of 30 minutes a day should be sufficient (more would be better).

3. Collared, Locked & Stuffed

Make a point of wearing a collar, being locked in chastity and being stuffed by a big black cock (real or dildo) daily whilst you're watching porn. A kind of ritual for yourself.

4. Fill Your Social Media Feed

Start a new account if you have to. I want your entire social media feed filled with beautiful strong black alpha men and for you to scroll through it daily liking, leaving comments and sharing to your own profile (of course, that means my socials too).

5. Recall Your Experiences From The Audio Files

Take time to recall the experiences you had whilst listening to the files at random moments throughout the day. Take a deep breath, think back to how you felt and let that feeling be recreated in your system. Do this a few times every day.

6. Stay Locked For Increasingly Longer Periods Of Time

If you arent already, start experimenting with being caged/locked (chastity) and start to extend the amount of time you stay locked for. This will increase focus on your transformation, increase your willingness to serve to the best of your ability and help keep you hyper focused (along with my files) on the path.

6 simple things that I want you to do for me daily. No excuses.
